

**HOA #1 and HOA #2 are proud to announce the birth of SEIC!**  
**Steve Watry and Kay Galligan – Co-Chairs**  
*September 2008*

The SaddleBrooke External Affairs and Information Commission (SEIC) is a unified HOA #1 and HOA #2 effort, created jointly to help our community better understand the issues, developments, and actions in our external environment that could potentially impact SaddleBrooke - either positively or negatively. We report to our two Boards of Directors; in addition, we provide relevant and up-to-date information to their executive staff, committees, STPO (SaddleBrooke Two Property Owners), and homeowners.

Some of us have come to think of SaddleBrooke as an oasis, providing a myriad of recreational and social opportunities in a beautiful, sheltered environment, far removed from the frantic pace of life “off the reservation.” In reality, we are not as isolated as we might like to think. The Tucson world is changing rapidly, and those changes will ultimately affect us – some for the better and some for the worse. SaddleBrooke’s ability to stay ahead of the curve is directly related to our willingness to “seek out” (aka SEIC) information about what is happening outside the confines of our community. This helps us understand the dimensions of the potential impact and helps us prepare for the future. SEIC’s job is to identify, prioritize and communicate, so that our leadership will understand both opportunities and threats.

If you are interested in helping, please contact Steve Watry (825-8722), Kay Galligan (825-5497), Bill Hooks (825-1033), or Betsy Levenson (207-892-4978 until 10/13; then 818-3058). We can talk about specific tasks, time commitment, and fit. Thank you!
